

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1-5. (Canceled)

6. (Previously Presented) An adhesive comprising:

a random copolymer of units derived from propylene and units derived from vinylcyclohexane

wherein the copolymer contains the unit derived from the vinylcyclohexane of 1 to 80 mol% based on the total amounts of units derived from vinylcyclohexane and propylene in the copolymer of 100 mol%, and the weight average molecular weight of the copolymer is 1,000 to 1,000,000, as an effective ingredient and the copolymer has a structure in which one vinylcyclohexane unit is inserted between two propylene units, a structure in which two vinylcyclohexane units are connected and a structure in which two propylene units are connected; and

a solvent selected from the group consisting of water, aromatic hydrocarbons, aliphatic hydrocarbons, ketones and alcohols, wherein the solvent is used in an amount of 150 to 3000 parts by weight per 100 parts by weight of the copolymer.

7. (Previously Presented) The adhesive according to claim 6, wherein the copolymer contains the unit derived from the vinylcyclohexane of 2 to 50 mol% based on the total amounts of units derived from vinylcyclohexane and propylene in the copolymer of 100 mol%.

8. (Previously Presented) The adhesive according to claim 6, wherein the copolymer has a molecular weight distribution (M_w/M_n) of 1.5 to 4.0.

9-19. (Canceled)
